

Donations to Greater Europe Mission e.V. in Germany

GEM Germany can now accept donations from European donors and issue “Spendebescheinigung” which are German non-profit tax receipts. Due to the European Union, these receipts can often be used for tax deductions in other countries within the EU. In order to receive donations, please be aware of the following:

- Receiving donations in Europe is relatively new for GEM and is still a manual process and thus slower.
- Missionaries will be informed of all donations received during a month, approximately 10 days after the end of that month.
- Donations will be transferred to the missionary’s Sending Center for inclusion in the missionary’s support account. The frequency of transfer will vary depending on the volume of donations received but will not be more than once every quarter.
- Donors will receive a donation receipt for all donations received during the calendar year, shortly after the end of the calendar year (January/February) and not before, as is common practice among German non-profit organizations.

Donors can use this link to register:

<https://survey.equiphispeople.com/index.php/644455?lang=en>

Once the registration form is submitted, an email with the bank transfer information will be sent to the email address that was provided in the form.

****It is extremely important that donors indicate in the reference section of the bank transfer the name of the missionary for whom the donation is intended.****
